WOLF AIRMASK

IT IS IMPORTANT TO STAY SAFE

WHAT YOU ALREADY KNOW ABOUT COVID-19:

“Coronavirus disease (COVID-19) is an infectious disease caused by a newly discovered coronavirus. Among those who develop symptoms, most (about 80%) recover from the disease without needing hospital treatment. About 15% become seriously ill and require oxygen and 5% become critically ill and need intensive care.”

BUT, WHAT YOU MAY NOT KNOW ABOUT COVID-19:

“Growing evidence from around the world suggests that a small proportion of people who have had COVID-19 and recovered from their initial infection can experience a range of ongoing symptoms including fatigue, brain fog and shortness of breath. The condition is often called “long COVID”. Given the multi-organ effect of COVID-19 on the body, survivors may have a variety of long-term effects on their organs. Persistent and extensive lung damage were found in many cases and major structural changes were observed in the lungs, which could last for years.”

Reuters Official Alerts dated Nov 4, 2020

“Some people who have had COVID-19, whether they have needed hospitalization or not, continue to experience symptoms, including fatigue, respiratory and neurological symptoms.”

HOW DOES
AIRMASK
WORKS. ■

The AIRMASK can discharge up to 100 million negative ions per $\text{cm}^3/\text{second}$, which will bind with the surface protein/Spike protein of the corona virus or any other harmful viruses & microbes present in the air & neutralize it.

-ve ions destroying S protein and Hemagglutinin

The negative ions stuck to the surface of the virus, transforms into highly oxidizing OH radicals & draw out the Hydrogen from the protein spikes of the virus. The protein from which the Hydrogen has been taken is degraded & the OH radical returns as water. This sequence is performed instantly & thereby eliminating & neutralizing the presence of virus & microbes.

*GRAPHICAL REPRESENTATION. NO VISIBLE EMISSIONS WILL BE PRODUCED BY AIR MASK.

When WOLF AIRMASK is placed in an area, it will ensure that the nearby premises & the atmosphere is purified by neutralizing the harmful bacteria and viruses, within no time.
